

Power Line Clearance & Tree Trimming

Statement of Understanding

I have received the Standards of Apprenticeship for the Power Line Clearance Tree Trimmer Apprenticeship Program and I am still interested in this program. I understand the following:

I am not allowed to work aloft (climbing or from a bucket) until I reach the 2nd Step of my Apprenticeship

I am required to report all the hours I work each month using the ONLINE Monthly Progress reports that can be found in my TradeSchool account under apprentice and hours.

I must complete the additional educational requirements by attending Saturday School classes

I must maintain my 1st Aid/CPR certification. I understand that an annual renewal is required as an apprentice regardless of the expiration date listed on my card.

I must maintain my Traffic Control Flagger certification.

I must obtain a commercial driver's license permit within 90 days of being indentured.

I must obtain a commercial driver's license within the first 3,000 on the job hours (OJT).

I further verify I am physically and mentally able to safely perform, or learn to safely perform the work of this trade, as indicated on my application.

I understand failure to comply with these requirements and any requirements set forth in the Standards of Apprenticeship may lead to my Apprenticeship Agreement being cancelled.
